Re: Protection Criteria and Local Limits Preliminary Approval
Centerville Pretreatment Program
NPDES Permit No. TN0024937
Hickman County

Dear Mr. Dotson:

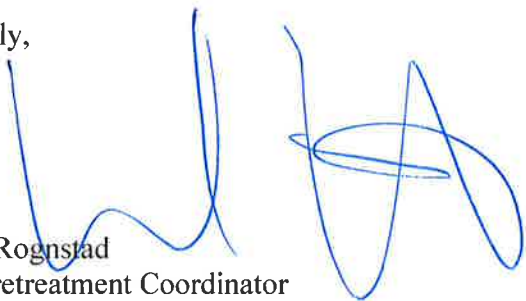

The Division of Water Resources acknowledges receipt, on November 3, 2016, of Centerville's proposed Plant Protection Criteria (PC) and Local Limits (LLs) calculations for the Centerville wastewater treatment plant. The calculations and proposed limits are acceptable and appear to adequately protect both the POTW and the environment. Therefore, the division grants preliminary approval for the limits.

The definition of substantial modification in Tennessee Rule 0400-40-14-.18(2) includes "modifications that relax local limits." Should Centerville relax any of the local limits, you must proceed with the public notification requirements in Tennessee Rule 0400-40-14-.18. Centerville should proceed as follows. If the Sewer Use Ordinance (SUO) is to be changed, the same public notice requirements apply.

1. Centerville shall publish a notice, in a newspaper of general circulation that provides meaningful public notice within the jurisdiction served by the Centerville WWTP, indicating that the previously approved pretreatment program is being amended. The notice should include:
 - A. A brief description of the proposed changes
 - B. The length of time for public review, not less than thirty (30) days
 - C. An invitation to comment on the change
2. Following the comment period, Centerville is to submit to this office the following:
 - A. A notarized statement from the newspaper publisher, attesting that the notice was published (the notice needs to be published only once)
 - B. A copy of the notice
 - C. A copy of all comments and any responses by Centerville

Following the receipt of the information in No. 2 above, this Division will give final approval of the modifications, provided that public comments have been dealt with satisfactorily. If you have any questions, please do not hesitate to contact me at (615) 532-8786 or Laurel.Rognstad@tn.gov.

Sincerely,
